

Prelaunch Checker — Feature Gap Report

Every feature found across Microsoft Clarity, Google Analytics 4, Screaming Frog, Ahrefs, PageSpeed Insights, and AISEO.ai — marked against what Prelaunch Checker already has.

Have	Gap	Total tracked
21	69	90

Behavior & UX Analytics (Microsoft Clarity)

Feature	Status
Click heatmaps	X GAP
Scroll heatmaps	X GAP
Area / attention heatmaps	X GAP
Session recordings (unsampled)	X GAP
User journey / flow visualization	X GAP
Rage click, dead click, quick-back (thrash) detection	X GAP
JavaScript error tracking tied to sessions	X GAP
Custom tags, filters, multi-dimensional segmentation	X GAP
Real-time behavior dashboard	X GAP
User annotations	X GAP
AI-generated session summaries + friction-signal flagging	X GAP
AI chat / natural-language querying over analytics data	X GAP
Multi-site / multi-team management	X GAP

Traffic & Conversion Analytics (Google Analytics 4)

Feature	Status
Event-based visitor tracking	X GAP
Auto-tracked engagement events (scroll depth, outbound clicks, etc.)	X GAP
Free-form exploration tables, funnels, path analysis, cohorts	X GAP
BigQuery / raw data export	X GAP
Configurable, changeable attribution models	X GAP

Feature	Status
Data-driven (ML) attribution	✗ GAP
Assisted-conversion / multi-touchpoint funnel-stage reporting	✗ GAP
Cross-channel budget / spend forecasting	✗ GAP
Predictive metrics (purchase / churn probability)	✗ GAP
Anomaly detection	✗ GAP
AI-generated insights ("what changed and why")	✗ GAP
E-commerce funnel tracking	✗ GAP
Consent-mode data modeling	✗ GAP

Crawling & Technical SEO (Screaming Frog)

Feature	Status
Multi-threaded crawler with JS rendering	✓ HAVE
Broken link detection	✓ HAVE
Structured data (JSON-LD / Schema) validation	✓ HAVE
Robots.txt auditing incl. AI-bot access rules	✓ HAVE
llms.txt detection	✓ HAVE
Raw-HTML text ratio / JS-dependence test	✓ HAVE
Semantic HTML scoring	✓ HAVE
Spoofed-AI-user-agent WAF / anti-bot detection	✓ HAVE
Scheduled crawls with auto-diff comparison + alerting	✓ HAVE
Emailed crawl / alert summaries	✓ HAVE
Meta tags, headings, images/alt, URL structure, canonical, indexability checks	✓ HAVE
Viewport / basic mobile tag check	✓ HAVE
Sitemap existence check	✓ HAVE
Fix-suggestion recommendations per failed check	✓ HAVE
Server log file analysis (crawl budget / bot behavior)	✗ GAP
Custom data extraction (XPath / CSS selector / regex)	✗ GAP
Forms-based authentication for crawling gated pages	✗ GAP
Duplicate content / title / meta detection across a crawl	✗ GAP

Feature	Status
Hreflang validation + circular-reference detection	X GAP
AMP validation	X GAP
Full accessibility audit (WCAG-style, beyond alt text)	X GAP
Spelling & grammar checks	X GAP
Full mobile usability audit (beyond viewport tag)	X GAP
XML sitemap generation (not just detection)	X GAP
Uncrawable-link detection	X GAP
Visual site architecture / link graph	X GAP

Keyword, Backlink & Competitive Intelligence (Ahrefs)

Feature	Status
Domain authority scoring	X GAP
Backlink index (referring domains, anchor text)	X GAP
Organic keyword discovery per domain	X GAP
Keyword research (volume, difficulty, intent, CTR)	X GAP
SERP overview per keyword	X GAP
Rank tracking by location/device over time	X GAP
Content gap / competitor analysis	X GAP
Paid search intelligence	X GAP
Backlink / ranking change alerts	X GAP

Performance & Core Web Vitals (PageSpeed Insights)

Feature	Status
LCP, CLS, INP, FCP, Speed Index, TBT, TTI metrics	X GAP
Weighted composite performance score	X GAP
Lab data vs. field (real-user) data comparison	X GAP
Opportunities & Diagnostics fix recommendations	X GAP
Desktop vs. mobile split testing	X GAP
Regression tracking / performance monitoring over time	X GAP

AI Visibility / GEO

Feature	Status
AI crawler/bot access auditing	✓ HAVE
llms.txt presence check	✓ HAVE
JS-dependence / raw-HTML readability test	✓ HAVE
Semantic HTML structure scoring	✓ HAVE
Anti-bot / WAF blocking detection for AI user-agents	✓ HAVE
Brand / citation tracking across AI answer engines (ChatGPT, Perplexity, AI Overviews)	✗ GAP
Prescriptive LLM-facing content rewrite guidance	✗ GAP

Content & AI Writing (AISEO.ai)

Feature	Status
SEO article generation	✗ GAP
Paraphrasing / rewriting with tone control	✗ GAP
Readability scoring and improvement suggestions	✗ GAP
AI-content-detector bypass / humanization	✗ GAP
Meta description / title generation	✗ GAP
Topical authority / subtopic coverage mapping	✗ GAP
Multilingual content generation	✗ GAP
Brand voice replication	✗ GAP

Platform & Integration Layer

Feature	Status
Internal REST API (checks, crawl, SEO audit, scheduling)	✓ HAVE
JWT auth, user accounts, PDF export, report history	✓ HAVE
Public documented API product	✗ GAP
GA / Search Console / PageSpeed integrations	✗ GAP
MCP server for AI-assistant access	✗ GAP
Looker Studio / BI tool connectors	✗ GAP

Feature	Status
CI/CD integration (Lighthouse-CI style regression blocking)	X GAP
GDPR/CCPA sensitive-input masking	X GAP
